KX Modifier

Reimbursement Policy ID: RPC.0062.7100

Recent review date: 01/2024

Next review date: 10/2025

AmeriHealth Caritas Delaware reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. AmeriHealth Caritas Delaware may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases,10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

Policy Overview

This policy describes AmeriHealth Caritas Delaware reimbursement criteria for procedures appended with modifier KX, which is used to indicate the provider's confirmation that services are justified by appropriate documentation in the medical record.

Exceptions

N/A

Reimbursement Guidelines

AmeriHealth Caritas Delaware will consider services and supplies appended with modifier KX for reimbursement when documented in the medical record supports that the patient's experienced gender differs

from their sex assigned at birth. Use of the KX modifier will prevent inappropriate application of gender-specific clinical edits in this situation.

(NOTE: Inpatient and outpatient facility providers who submit claims on form CMS-1450 should report claim Condition Code 45 for accurate reimbursement.)

Definitions

Condition Code 45 – Gender Incongruence
A person's marked and persistent experience of an incompatibility between that person's gender identity and their sex assigned at birth.
